CHOLERA IN CHINA AND JAPAN.

A passenger who arrived at Sa Francisco September 17, in the S. Rio de Janeiro, from China ar Japan, gave the following stat ment to a reporter of the Alta:

"At present China is thrown into mourning by the terrible cholera epidemic, which raged fiercely in our vicinity. The natives are dying by hundreds, perhaps by thousands. Day after day, all day long, you see the dreary funeral processions passing the windows. I could not attempt to give you any statistics of the mortality, which is something frightful. The white residents have suffered very little from the epidemic. They take care of themselves and keep their houses clean and well ventilated. Cholera never frightens us at all. That it makes such terrible ravages among the Chinese is due to their mode of living. Their quarters are close and filthy, and their food greasy and unwholesome. The authorities at the open ports are taking every precaution against the spread of the affliction. Every ves-

sel is quarantined and thoroughly

fumigated, as are also the passen-

gers and their effects. This is done

proved very tedious to us, as we

had to stop several times on the

way from Shanghai to Hongkong. "The cholera is also prevalent in Japan, and there also the quarantine is very rigorous. Our steamer was stopped at the quarantine station, several miles from Yokohama, and thoroughly fumigated. The passengers were placed in a little room and obliged to strip off every stitch of clothing. The clothing was passed out in little baskets and returned in a short time neatly folded and quite bot from the process through which it had gone.

## DR. J. COLLIS BROWNE'S CHLORODYNE

THE ORIGINAL and ONLY GENUINE. Advice to Invalids.—If you wish to obtain quiet refreshing sleep, free from headach, relief from pain and anguish, to calm and as in the weary achings of protracted disease, in vigorate the nervous media, and regulate the circulating systems of the body, you will provide yourself with that marvelleus remedy discovered by Dr. J. Collis Browne ('are Army Medical Staff), to which he gave the name of CHLORODYNE, and which is admitted by the profession to be the most wonderful and valuable remedy ever discovered.

able remedy ever discovered.

CHLORODYNE is the best remedy known for Coughs, Consumption, Bronchitis, Asthma.

CHLORODYNE acts like a charm in Diarrhea, and is the only specific in Cholera and Dysentery. CHLORODYNE effectually cuts short all at-tacks of Epilepsy, Hysteria, Palpitation, and

CHLORODYNE is the only palliative in New ralgia, Rheumatism, Gout, Cancer, Toothache Meningitis, &c. Brom Symes & Co., Pharmaceutical Chemists, Medical Hall, Simla, January 5, 1884. To J. T. Davenport, Eeq., 33, Great Russell Street. Bloomsbury, London. Dear Sir., We embrace this opportunity of congretulating you apon the wide-spread reputation this justly exteemed medicine, Dr. J. Collis Browne's Chierodyna, has carned for itself not only in Birokestan, but all over the East. As a remedy for general utility, we must question whether a better is imported into the country, and we shall be gind to hear of its finding a place in every Angle-Indian home. The other brands, we are serry to say, are now relegated to the native barner, and, judging from their sale, we fancy their sojourn there will be but evanescent. We could multiply instances ad infantament of the extraordinary efficacy of Dr. Collis Browne's Chierrodyne in Diarrhosa and Dysentery, Spame, Cramps, Neuralgia, the Vomiting of Pregnant, and as a general sedative, that have occased under our personal observation during many years. In Cholerer Diarrhos and as a general sedative, that have occured under our personal observation during many years. In Cholers: Diarrhes, and even in the more terrible forms of Cholera itself, we have witnessed its surprisingly controlling bower. We have never used any other ferm of this medicine than Collis Browne's from a fam Conviction that it is decidely the best, and also from a sense of duty we owe to the profession and the public, as we are of opinions that the substitution of any other than Collis Browne's is a Deliberate Breach of Pairs on the Pairs of the Chemist to Prinschief and Deliberation of the Pharm. Society of Great Britian. His Excellency the Viceroy's Chemists.

CAUTION.—Vice-Chancellor Sir W. Page Wood stated that Dr. J. Collis Browne was undoubtedly, the Inventor of Chlorodyne; that the story of the defendant Freeman was deliberately untrue, which, he regretted to say, had been sworn to.—See "The Times," July 13

Sold in bottles at 1s. 1%d., 2s. 2d., 4s. 5d., and 11s. each. None is genuine without the words "Dr. J. Collis Browne's Chlorodyne" en the Government stamp. Overwhelming modical testimony accompanies each bottle. Cantion.-Beware of Piracy and Imitations.
